Household Items Moving Inventory Checklist

How to use this checklist:
Use this form to list your main household items room by room before your move. You do not need to list every small item individually—focus on larger furniture, appliances, and notable items.
On moving day, you can tick "Loaded on truck" once each item has been moved. This helps ensure nothing is missed and gives you a clear reference if you need to double-check items later.
This checklist is optional but recommended for larger homes or more complex moves, and can also be shared with your removalist for a more accurate estimate.

Room	Item Description	QTY	Who is moving (R for Removal Company)	How Many Boxes	Loaded on truck (Y/N)	Notes
